

## ENTREPRENEURIAL FINANCIAL COMPETENCE

Financial competence in the right place, at the right time and to the right extent. Financial competence where it is needed, accompanying and supporting without making yourself indispensable. Financial competence as a board member, in the finance committee or as a sparring partner to the entrepreneur or the executive management. Entrepreneurial financial competence through long-term support and also own risk taking.

My education with an **INSEAD certificate in Corporate Governance**, my **MBA** and diploma as a **Swiss Chartered Accountant** as well as the **various practical experiences** in good and bad times in **line functions as CFO and CEO** help me in finding and implementing good and sustainable solutions together with clients.

## OVERVIEW OF SERVICES
